

Dear Franchises

This is to inform you that we are shifting all V sat from existing KU Band technology to XC Band technology to avoid the interruptions between trading hours during the rainy seasons. It also helps us to maximize the bandwidth so that we can move data traffic more efficiently. We have taken the brief estimate in this migration process and we are ready to share the expenses in the proportion of 50 : 50.

Here I am giving you the rough estimate of this migration process:

<i>Description</i>	<i>Amount (Bharti Users)</i>	<i>Amount (Hughes Users)</i>
<b>VSAT Migration to HCL Comnet</b>	<b>15,000</b>	<b>20,000</b>
<b>Installation &amp; Commissioning Chrg</b>	<b>5,000</b>	<b>8,000</b>
<b>Transport &amp; Other Charges</b>	<b>1,500</b>	<b>3,500</b>
	<b>21,500</b>	<b>31,500</b>

The 50% will be bared by the company itself and balance Rs. 10750 / is also rounded off to Rs. 10000/ for Bharti Users and Rs. 15,000 for Hughes Users will be debited to your Remissary A/c.

Hope in interest of better services and fast data movement in trading terminals, all of you will support yourself and the company.

IT Team  
R.K. Group
